

How Your Gift Helps

Your gift to the Alliance, in any amount, will go directly to families in our community who are navigating their child's epilepsy surgery journey.

\$10		can provide help to a parent looking for support
\$25		can support an important educational webinar for our families
\$50		can provide an hour of free school training to help teachers understand how to help a child in school after brain surgery
\$100		can provide financial assistance to a family traveling to a specialized hospital for a surgical evaluation
\$250		can support ground-breaking research to help us understand how to improve outcomes after surgery
\$500		can help us connect 100 parents to critical social services

Your support allows us to assist parents and caregivers.

"After our phone call, I felt more centered and left with some notes for my next steps. I was feeling overwhelmed with not doing "enough". I also wanted to be aware of any programs or resources that I wasn't already tapping into. It was very informative and helpful."
